RASPL

INTRODUCTION

In the year 2008, a young entrepreneur, **ANKIT AGARWAL** started **ARS Structural Private Limited**. In a short while, along with intense hard work and struggle, he was blessed with immense support from the People of the Industry. This was a big boost and the year 2009 became a turning point for the organization, wherein, he commenced the supply of Steel & other allied products to several projects in India. This gave birth to **ARS Steel Private Limited** in 2011, serving only Multinational Corporates such as TATA group, JSW, L&T, and others. At this stage, the company decided to go ahead with one step forward integration, and came up with a **Fabrication Unit** in West Bengal. The aim was to serve the upcoming and ongoing projects in the booming **Power sector**, under the same roof.

Inspired by the values and principles of his family, in 2018, the company was renamed as **RASPL IN-DUSTRIES PRIVATE LIMITED**, which today has successfully become a brand name across all industries and sectors. Since inception, we are serving our clients with the prime objective to deliver superior quality products within the committed time frame. Enriched with vast experience of several years, we have gained a better understanding of diverse requirements of ever-changing industry and offering the best solutions to the clients as per the latest trends.

Our motto is to deliver service to our clients, rather than just trading. Looking at the hindrances in the logistics sector, **RASPL Logistics Private Limited** was formed, having a strong network of logistics services throughout the nation, enabling us to deliver our services in a hassle free manner.

Forecasting the future growth in the industry, Group is in an expansion mode. The Group is planning to come up with its own **Rolling section** and other **Raw Material Divisions** (Forward & Backward Integration).

Under the leadership and guidance of our Director, **ANKIT AGARWAL**, we have been able to establish ourselves as one of the renowned manufacturers and suppliers of large variety of **Industrial Steel** & other allied products. With his effective client centric approach and futuristic vision, we have attained a distinct position in the industry. Within the next 5 years we aim to position our organization at the core of the industry throughout the world.

CUSTOMER SATISFACTION

Being one of the well-known firms of the industry, we aim at rendering maximum client satisfaction. With our client-centric approach and quality range of products, we have been able to fetch huge clientele across the nation. With the constant efforts of our team, we have been able to survive in this cut-throat competitive market. In order to maintain healthy and strong business relations with our valued clients, we offer easy modes of payments. Further, customization facility is also offered by us at industry leading prices. Timely delivery of consignments and ethical business practices gives us a distinct position in the industry.

OUR TEAM

Our company has hired skilled and specialized team of professionals, working towards the sole aim of meeting set targets of company within committed time period. They work in great coordination with each other, to meet the set targets of products and the urgent requirements of clients within promised time frame. Our team encompasses designers, production personnel, quality controllers and more.

WHY US

We have achieved a distinct position in industry by offering trustworthy solutions to our esteemed clientele and providing range up to the expectations of clients. Besides, we ensure to meet the specific needs of clients due to the support of our specialized team of experts.

OUR KEY STRENGTHS

- Experienced professionals
- Tailor made solutions
- Sophisticated infrastructure
- Easy payment modes
- Huge serving network
- Transparent dealings

MANUFACTURING FACILITY

Our Manufacturing & Fabrication Unit is located in Saraswati Complex, J.L No 32, Mouza Bhandardaha, Domjur, Howrah, West Bengal 711411.

We have a production capacity of 600 MT per month. Our well-equipped works facility, having qualified & experienced man power, has the potential and ability to fabricate & manufacture any Steel Structures specific to your requirement including Specific Equipment Structures as per drawing provided by you.

LOGISTICS DIVISION:

Our logistics division, RASPL Logistics Private Limited has a nationwide reach ensuring that our service reaches you on time.

QUALITY ASSURANCE:

We have a complete professional approach in maintaining proper Documentation & Data of all Forward and Backward Linkages. Once the ordered raw materials arrive at our Warehouse, our Internal Inspection Team, inspects the same by Random Sampling of the materials, so as to confirm that the delivered materials are concurrent to the materials ordered. After Internal Inspection, the samples are sent to Government Approved Test laboratories for Chemical & Physical testing as per the specification (IS, AISI, ASTM, BS, DIN, and SAE, etc.) required by our client. After the receipt of successful Test Certificate, the material is issued for further manufacturing process as per client requirement.

Safety First: After manufacturing, if required the manufactured items are Ultrasound tested or D.P. Testing is carried out for safety purpose.

TRAINING& DEVELOPMENT:

RASPL principle: We believe that knowledge and performance go hand in hand.

For the overall Performance enhancement of our organization, and Efficient Service Deliverance to our clients, our organisation conducts Monthly Training Sessions through-out every departments.

This ensures **SKILL DEVELOPMENT** for every employees of our organization and enhances their sense of participation in the continuous improvement in all area of organization.

In a holistic viewpoint, the overall process is aimed at successfully resolving every issues related to Client Servicing and Satisfaction.
